

SUPPORTING DUTY OF CARE

IN NEW PARTNERSHIP WITH EXPAT VALLEY

Supporting our clients in their Duty of Care responsibilities continues to be a priority for AIG. In collaboration with Expat Valley, we are proud to introduce the AIG Global Family Support Program as an integral part of AIG Expatriate Care program.

Family concerns and the importance of support

Family related issues rank among the top three reasons for assignment rejections and failures. For employers with a global workforce, extending care to the families of mobile employees offers a dual benefit: mitigating risks and enhancing the overall employee experience.

About the AIG Global Family Support Program

The AIG Global Family Support Program combines Expat Valley's expertise in family relocation with AIG's commitment to innovative solutions, offering expert guidance, tailored products, and practical support. Together, we are setting a new standard for family friendly expat insurance and ensuring successful relocation experiences.

If you have any questions, please contact our Underwriting Teams.

Key features of the program

- **Digital video library:** Unlimited access to informative videos on international relocation with children.
- **Family relocation webinars:** Quarterly live webinars with practical insights from relocation experts.
- **Family relocation newsletter:** Quarterly updates with curated content and upcoming event invitations.

Benefits for employers

- Reduced risk of assignment failures and rejections.
- Improved employee satisfaction and retention.
- Enhanced global mobility program effectiveness.

How to sign-up for the AIG Global Family Support Program

- Reach out to your underwriter in AIG.
- They will connect you with Expat Valley.
- Expat Valley will get you, your employees, and their families enrolled in the program.
